PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size*, heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes*, or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

SATURDAY AFTERNOON, NOV. 9, 1833.

SOMETHING NEW IN THE MERCURY.—The editor of this *independent* journal seems, in his last paper, to have turned over a leaf—strange as it may seem, he *actually* declaimed against *sycophancy!!*

The illiberality displayed in the following article, from the American Sentinel, is only equalled by the utter ignorance of matters which it pretends to understand.

The distance from Pittsburgh to Massillon, by the rail road, is 108 miles.
To Bolivar, by the Sandy canal, 118 "
To Akron, by the Mahoning, 141 "

It is true that the delegates from Philadelphia are uncommitted, and so are those this day appointed from Pittsburgh; and it is well they are so—their decision will, on that account, have the greater weight. If they should decide in favor of the northern rout, we think it will be a very satisfactory reply to the imputation of the Sentinel.

"*The cross cut canal*, designed to connect the Pennsylvania with the Ohio Canal, is, indeed, a subject of moment to our citizens—but it is a subject on which they should sedulously reflect, before they ultimately decide.

In noticing this topic—eight or ten days ago—we mentioned that two canal routs were proposed; that the one by Warren terminated 32 miles from the mouth of the Ohio, and was 92 miles from Pittsburgh: and that the other was 40 miles further south, and only 75 miles from Pittsburgh, and that there was an intermediate rout proposed for a rail road.

We own that we then looked with suspicion (or but very little satisfaction) on the northern rout, which is so serpentine in its course as to render its advocacy appear sinuous and sinister: and, we find, from an authentic source, having better means to acquire accurate information on the subject, that our surmises were but too true, or well founded.

Fortunately, our delegates to the Warren Convention are not pledged to any course, and we trust they will perceive and think for themselves—that the interests of the majority may be preferred to those of a few, and that jobbing will not be tolerated.

When rogues fall out, honest men hear some truths, if they do not come by their own. Witness the following question to Mr. Johns, in the last Mercury:

"Did you not, on your return from Harrisburg, last winter, (whither you went to have Mr. M'Candless removed and yourself appointed in his stead) boast that you had a pledge from Gen. M'Kean, that you should receive the appointment on the death of Mr. M'Candless, and was not the paragraph in the last Democrat complimentary to Gen. M'Kean, written for the purpose of securing a redemption of that pledge?

CONVENTION AT WARREN.—At a very large and respectable meeting of the citizens of Pittsburgh and of Allegheny county, held at the Court House, in this city, for the purpose of appointing delegates to the Warren Convention, the following resolutions, among others, were adopted—

"*Resolved*, That it is expedient that this city and county be represented in the Convention proposed to be held at Warren, Ohio, on the 13th inst. and that be appointed delegates for that purpose.

Resolved, That on this momentous subject we have no sectional interests or feelings; and that our Delegates, therefore, have the same power as that conferred on those for the city and county of Philadelphia, viz:—"to exercise a sound discretion upon the choice of routs to connect the Ohio and Pennsylvania Canals, and upon all other matters that may be presented to the Convention for their consideration."

Resolvrd, That the Delegates be authorized to fill any vacancies that may occur in their body.

The blank, in the first above resolution, was filled by the Mayor, with the approbation of the meeting, with the following names—

Richard Biddle, Charles Avery,
George Miltenberger, Wm. Robinson, Jr.,
Alba Fisk, Geo. Cochran, of R'd.
Wm. Lecky,

OBITUARY.

Departed this life, in this city, on the first inst., in the twenty seventh year of her age, Mrs. SUSAN DUNLAP, youngest daughter of the late Mr. Jeremiah Sturgeon, dec'd.—During a protracted illness, which she bore with exemplary patience, she was brought to an experimental acquaintance with the Truth, as it is in Jesus, and was enabled to rejoice in God, *her* Savior. For about three weeks prior to her demise, her prospects of eternal bliss were unclouded—Christ was precious to her soul, and her confidence in him was unshaken. On the day of her departure, is answer to a question put to her by a friend, when she could not speak, she lifted up her hand, as an expression of her confidence and comfort. She has left behind her a husband, with three lovely children to mourn their irreparable loss.—Her remains were interred in the burial ground of the first Presbyterian Church, attended by a numerous concourse of friends, on Sabbath afternoon.

CHESAPEAKE & OHIO CANAL MEETING.

At a very large and respectable Meeting of the friends of the Chesapeake and Ohio Canal, convened at Captain Whaley's Inn, in Connelsville, on Saturday evening, the 2d of November, 1833, HERMAN GEBHART, Esq., was elected President, Mr. ALEXANDER JOHNSTON and Dr. JAMES C. CUMMINGS, Vice Presidents, and *Mr. Hiram Herbert* and *James M'Ilvaine*, were appointed Secretaries. The object for which the meeting had assembled, having been announced by the President, the following resolutions were adopted, viz:—

1st. *Resolved*, That Messrs. John Fuller, Wm. Davidson, James C. Cummings, Samuel Marshall, William Litle, Alexander Johnston, John Bolton, William L. Miller, and Thomas Foster, be a committee to prepare a memorial, praying Congress to appropriate one million of dollars to aid the construction of the western section of the Chesapeake and Ohio Canal.

2d. *Resolved*, That Messrs. Alexander Johnston, Wm. Davidson, James C. Cummings, Robert Long, John Fuller, John W. Philips, Daniel Kain, Wm. L. Miller, James M'Ilvaine, Saml. Marshall, Daniel Rogers, Joseph Torrence, and Thomas Boyd, be a committee to address the citizens of those towns which are immediately interested in the construction of the Western Section of the Chesapeake and Ohio Canal, recommending the adoption of such measures as will aid the accomplishment of that object.

3d. *Resolved*, That the Committee appointed by the first resolution, be authorized to procure five hundred printed copies of the Memorial to Congress, and have them circulated among the people for their signatures.

4th. *Resolved*, That the proceedings of this meeting be signed by the officers, and published in the papers of the county of Fayette; and that the publishers of papers in the adjacent counties be most respectfully requested to aid the views of this meeting by giving them an insertion in their respective papers.

On motion, the meeting then adjourned.

NEWS BY THE MORNING'S MAIL!

THREE DAYS LATER FROM FRANCE.

By the packet ship Sully, Captain Forbes, arrived at New York from Havre, Paris papers, to the 1st of October, have been received. We are indebted to the Commercial Advertiser and Daily Advertiser, for the following articles.

Mr. Livingston and suite, with the officers of the United States ship Brandywine, dined with the King and Royal Family, on the 26th of September.

Prince Talleyrand had arrived at Paris, from England.

The voyage of the Carlo Alberto, from the Adriatic to Marseilles, appears to have been a very innocent one, notwithstanding the alarm which her arrival produced in the French capital. This steam boat, it will be recollected, is the one which in May, 1832, landed the Duchess of Berry in France, and it is stated that the arms of the Princess, and of her son, are still conspicuous in that vessel.

Speaking of the groundlessness of the alarm just referred to, the Gazette de France says:—"Whilst the *juste milieu* is setting on foot all its agents to watch the frontiers of Italy, because the Duchess of Berry has passed through that country, we believe we may affirm the mother of Henry V. arrived at Prague yesterday, the 28th September, the eve of her son's becoming of age. The Duchess is accompanied by the Viscount de Chateaubriand."

Advices from Madrid are to the 19th of September. The King of Spain was in the enjoyment of perfect health. Grijalva, many years the favorite of King Ferdinand, is dead. Though in fact no more than a valet de chambre, he had joined to his domestic station the office of Secretary of Commandments, private Treasurer, and Keeper of the Estampilla, or Signet of the King.

The Cholera was raging with severity at Seville.

Mr. Harris, the Charge d'Affaires of the United States at Paris, was presented to the King of France on the 26th of September, with the usual ceremonies, for the purpose of taking leave. He introduced to his Majesty, on the occasion, the Captain and different officers of the Delaware, recently arrived at Cherbourg.

The Paris Moniteur states that the effects of the late fire at Constantinople have been greatly exagerated. It moreover arose from accident, and not political design.

The Bugia expedition sailed from Toulon for Africa on the 22d, under the command of M. Dechenes, having on board 1,800 troops.

Bugia, against which the expedition, which has sailed from Toulon is directed, is seated about half way between Algiers and Constantine, and a few leagues from the mouth of Zowah, one of the most considerable rivers of the Regency, and on the banks of which the city of Constantine is built. As a military station, according to the best opinions it may be made a second Gibraltar.—The Spaniards took possession of Bugia towards the end of the sixteenth century.

The Northern Sovereigns.—The Emperor of Russia was on his way from Munchengratz to Berlin. He was gratified on his visit with hunting excursions and military reviews. Of the nature and consequences of the resolutions adopted at Munchengratz, it appears evident that nothing has as yet been communicated to the public on the subject. Many assert that the journey of the Emperor Nicholas was not so much owing to the invitation of the other Monarchs as to a wish of his own, and thence drew many inferences.

The Frankfort Post Amt Gazette, says that all that has been done in the Conferences of Theresienstadt, Schwedt, and Munchengratz, may be summed up in the following pacific formula:—Maintenance and consolidation of the *statu quo*. No more concessions to the propaganda."

The Swabian Mercury gives the following, under date of Berlin, Sept 17th:

"Great movements have been observed in the Russian army, in Poland, showing that the Cabinet of St. Petersburgh is determined to be prepared for any event. Complaints are made of the deficiency of the harvest, in the Governments of Orenbourgh and Casan. Moreover, Orenbourgh is ravaged by bands of brigands, the chiefs of which, the authorities, with all their vigilance, have been unable to arrest."

EGYPT.

By accounts from Alexandria, it appears that the Egyptian Government has issued an Ordonnance prescribing as follows:—1. The prohibition of receiving Turkish coin in the Government offices is renewed, and is to be strictly acted upon. 2. The officers of the Custom Houses and Lazarettos are enjoined to seize all Turkish coin found among objects landed, or in the possession of travelers. 3. The authorities are to cease all intercourse with merchants who may import such coin into Egypt.

GREECE.

The Augsburg Gazette, of the 24th September, says:—

"According to the last accounts from Candia, the Greek residents in that island are greatly dissatisfied, because they fear that the Egyptian monopoly system will be introduced there, in which case the chief productions of the island, such as almonds, oil, etc. would be brought up at a fixed price, and sold by the Government. Their dissatisfaction has lately been increased by an Ordonnance of the Government fobidding all Greek residents in Candia to sell their property. The Greeks consider this a measure intended to force them to remain in the island."

The Duchess of Berry appears to be traversing the Papal States. At Florence and Bologna she was well received. The French government appears to be watching her movements with considerable interest.

France and the continent generally, if we except Portugal, appears in a very quiet state.

The Temps, after congratulating the country on the political and commercial alliance existing between France and England, urges that those two countries ought to take advantage of the evident apprehension of the northern Powers, to give a helping hand to the cause of European liberty, beginning with Portugal, in which the present unnatural contest ought, it contends, on every principle of policy and humanity, to be put an end to.

The Journal de Paris and the Courier Francais agree in their opinion of the great advantages which will accrue to the country from the adoption of the proposed system of Rail Road communication in France.

The Journal des Debates ridicules the exaggerated apprehensions which have been entertained as to the consequences of the meeting of the Northern Sovereigns at Munchengratz, expressing at the same time its conviction that the firm attitude assumed by France and England is sufficient to prevent the other Powers so far violating the dictates of prudence as to attempt to stop the rational progress of civilization in Europe.

PARIS, Sept. 38.

Yesterday Gen. Lafayette had a long conference with Mr. Livingston, the ambassador from the U. States—the personal friend of the general for the last 56 years.

It is thought that the object of the conference was the treaty with the U. States and for the execution of which the Chambers appear but little disposed to vote the 25 millions.

ONE DAY LATER FROM ENGLAND.

By the packet ship Samson, Capt. Chadwick, arrived at a late hour last night, we received, says the Mercantile Advertiser, London papers to the evening of the 30th September. They contain no news of importance.

The Lord Nelson arrived at Greenwich, from Lisbon, from which she sailed on the 18th instant, at which date no military operation of importance had taken place subsequently to the sailing of the Echo. The letters received through this channel mention the capture of the Lord of the Isles steam boat, and another vessel, laden with stores and ammunition. The vessels were carried into Lisbon.

Letters from Madrid of the 19th, and the Spanish Gazettes of the 18th and 19th have been received. The cholera has as yet not made its appearance in the capital, but considerable fears were entertained of its approaching invasion.—Private letters state that the general impression in the Spanish capital continued to be in favor of the speedy triumph of Don Miguel. Supplies of money had been despatched to that Prince by his friends at Madrid, and by all accounts the royal troops are fully provided with every necessary of life.

"Private letters have been received this morning, brought by a merchant vessel, from Lisbon, dated the 18th inst. Up to that date affairs remained tranquil, no further attack or demonstration having been made by the Miguelite army.—It is likewise positively reported that the steam vessel, the Lord of the Isle, has been captured by two of the Queen's ships. The steam boat has on board twenty seven French officers, who were going out to join Marshal Bourmont, and was also heavily laden with ammunition and warlike stores. It is likewise stated, that a small schooner laden with shot had shared a similar fate.

FRANCE AND NEW GRENADA.

The Journal of Commerce has received via Jamaica, Carthagena papers to October 7, and Bogota to the 15th September.

Carthagena is blockaded by a French squadron. The object of the squadron is to demand immediate reparation for an insult offered to France by the authorities of Carthagena, in permitting the populace to seize and imprison the Consul, *Sieur Barrot*, and otherwise insult the honor of the nation, by allowing his house to be rifled, &c. &c.

On the part of Carthagena it is replied:—"If disregarding the facts, that the affair of the French Consul is consigned to our highest authorities, and that I am expressly forbidden to interfere with foreign or diplomatic relations, your excellency should persist in executing your menace against a defenceless people, your excellency will be responsible to God and man for the injuries yon will perpetrate."

The matter was not settled on the 8th Oct.—but remained one of correspondence, &c.

Algiers.—Some of the British journals show much jealousy because of the fitting out of a new and large expedition, by France, for consolidating and extending her conquests in Africa. It is the *real* John Bull "genius" to be in enmity with others for doing those things, for themselves, which Great Britain is every day doing, for herself! She has impressed our seamen on the high seas—but if the United States should sanction such an impressment of "free born" British seamen, a noise would be made which might make one believe that the world was coming to an end!!! And, while Great Britain has gathered into her dominion, in Asia, not less than 150 millions of persons, and a vast territory—some of her people are ready to quarrel with France, for destroying the piratical hordes of Africa, and endeavoring to restore fertility and civilization to the coast of the Mediterranean. It is right in Bull to levy a duty of 1,000 per cent. on our tobacco, and of 100 per cent. on our flour—but wrong in America to lay a duty of 50 per cent. on English manufactures of wool or iron, &c.—*Niles.*

THE RAFT OF RED RIVER.

Navigation of the Western Waters.—The Captains and crews of the snag boats Archimedes and Heliopolis, under the superintendence of Captain Shreve, are said to be progressing rapidly in removing obstructions to the navigation of the Western waters.

The Captain and crew of the Archimedes, which has been for some time employed in removing the extensive raft of Red River, have succeeded in clearing away *seventy five miles* of the raft, and in rendering that distance as safe for navigation, as any part of the river below it. There yet remains, by computation, *sixty four miles* of the raft to be removed, which the superintendent, however, has thought it advisable, for the present, to abandon, for the want of an appropriation sufficient for its accomplishment.

The Heliopolis, Capt. Moorhead, had ascended the Arkansas river about twenty miles, previously to the late heavy rains; but after having completely removed all the snags in that distance, it was found that it could ascend no farther, on account of the low state of the water, and hence it has returned to the Mississippi river; and it will, in the course of a week from this time, with the co-operation of the Archimedes, lately from Red Red river, have cleared the channel of the Mississippi river, between this place and the mouth of the Arkansas. The business, as it now progresses, is effectually done; for the water of the river, although sufficient for successful navigation, is comparatively low, and there is scarcely a snag worty of notice, but what is destined to be extracted and removed by the never failing efficiency of those powerful engines.

[The above account we have from Capt. Moorhead, who, with the Heliopolis and crew manœuvred in our sight a few days since, grappling and dislodging every snag in the river, as they went, which appeared to maintain a threatening aspect.—*Helena, (Mo.) Herald, Sept.* 26.

Curious Historical Fact.—During the troubles in the reign of Charles I, a country girl came to London in search of a place as a servant maid—but not succeeding, she hired herself to carry out beer from a brew house, and was one of those called tub women. The brewer observed a good looking girl in this low occupation, took her into his family as a servant, and, after a short time, married her, but he died while she was yet a young woman, and left her the bulk of his fortune. The business of the brewery was dropped, and Mr. Hyde was recommended to the young woman, as a skilful lawyer, to arrange her husband's affairs. Hyde, who was afterwards Earl of Clarendon, finding the widow's fortune very considerable, married her. Of this marriage, there was no other issue than a daughter, who was afterwards the wife of James II., and mother of Mary and Anne, Queens of England.

Good House Keepers.—If there be any thing among the temporals to make life pleasant, it is within the walls of a well ordered house, where all is adjusted to please—not by its finery or costliness, but by its fitness, its air of neatness, and content, which invite all who enter to taste its comforts. The woman who does not make this a grand item in all her routine of duties, has not *yet* learned the true dignity of her station—has not yet acquired the alpha of that long alphabet which is set before her: and she who despises this noble attainment, despises her *best* wordly good, and indirectly despises her family, her neighbors, and the word of God. "She looketh well to the ways of her household," was spoken by the wisest man that ever lived, and will be told as a memorial of all those who have been eminent for this noble character.—*Gen. of Tem.*

Philadelphia Exchange.—The key stone of the pediment of the Philadelphia Exchange was hoisted on Friday afternoon, and fixed upon the apex of the building. The workmen ranged themselves on the cornice, and enthusiastically cheered this crowning effort of their labors, which has been so far successfully applied to the completion of the marble work of this beautiful structure. Too much praise cannot be bestowed on the marble masons for the excellence of their workmanship, and for the good order and harmony which has prevailed among them while executing this work. It is entirely due to this class of our fellow citizens, to notice and acknowledge their merit, as well as all the orders of workmen engaged at the building.

It is now but twenty months since the corner stone of the Exchange was laid, and in two more months the building will be ready to receive the tenants of the numerous offices connected will our commerce.—*Commercial Herald.*

The election held this day at New York is of much importance. If the *independent* ticket formed at Tammany Hall should succeed, a similar triumph over the Regency may be achieved throughout the State. This would be a fortunate revolution, for the dominion of the Regency is the worst possible. The New York Evening Post trembles and gnashes at the Independent Ticket—

"The ticket headed with Mr. Verplanck's name is a ticket of Bank candidates—of individuals, who, if elected, will do all in their power to promote the interests of that most corrupt and atrocious institution, the United States Bank—who will oppose the cardinal measures of the general and State Administrations—who will be, in all essential respects, enemies to our party, to our principles, and our ends."

Pity it is that their ends should be opposed at all. The Evening Star exults in the new chance of "rescuing the people from the control of a handful of men at Albany."—*Nat. Gaz., Nov.* 4

Progress of Improvement.—We observe, in an Illinois paper, the proceedings of a public meeting, held at Chicago, with a view to measures for the immediate commencement of a Rail Road from the waters of Illinois river to Lake Michigan.—This is one of the most striking exemplifications which we have ever seen of the enterprising character of our people. Any reader who will look at his map, find where Chicago is, and consider how recently that whole region was a remote Indian wilderness, will agree with us in this opinion.—*Nat. Int.*

Singular.—A late London paper contains a letter from Hungary, under date of 8th Aug., which states that the country had been deluged, by an almost incessant rain from July 2d. On August 4, at day break, the weather appeared to be clearing up, but at mid day the sun became completely obscured, as if by an eclipse, and five minutes afterwards a globe of fire as large as a carriage wheel, appeared in the west, and moving in a serpentine course, broke against the mountains with a tremenduous explosion. It was immediately followed by a torrent of rain that inundated the whole country. The atmosphere became extremely cold, and on the 6th, the Alps were covered with snow.

English Pauper System,—From official returns, it appears that the independent agricultural laborer, in England, gets an average of 122 ounces of solid food each week; the soldier, 168; the able bodied pauper, always 151, and generally about 200; the suspected thief, 203; the arrested thief, 239; the convicted thief, 330; so that the transported thief has nearly three times the allowance of the honest laborer. Well may Mr. Bulwer ask, "what effect must those laws have on our social system, which make the laborer rise by his own degradation?" Far distant be the time when such a population and such a legislation shall be ours. We can much better endure, meanwhile, the terrible reproach of Hamilton, that we eat our eggs from a wine glass.—*Boston Journal.*

Digby Herrings.—We regret to hear that but few herrings have been caught in the Bason of Annapolis. The fish crop appears to be as uncertain as almost any other—last year there were more than salt could be found for, and the smoke houses were in constant occupation; a few hundred boxes are perhaps all that have been cured the present season.—*Novascotian.*

Emigration.—The season for the arrival of emigrants, says a Quebec paper, of Oct. 21, may now be considered closed. The total number on the exchange books (21,945) is 3,000 less than half of last year. It is satisfactory, however, to know that those who arrived during the past summer, were, generally speaking, of a more wealthy class than we have been accustomed to receive.

E. K. Avery.—We learn, from Bristol, that this individual returned to that place about ten days since, where he now resides with his family. We also learn, that he has been suspended from his ministerial labors, for the present, by the Conference, and that he now takes no part, nor attends at any of the religious exercises which are observed by his congregation.

Application is to be made to the Legislature of New York, at its next session, for a Bank of Exchequer, with a capital of ten millions.

Rumors of a considerable deficit, pecuniary in the department of the General Post Office, are in circulation. The National Intelligencer, of Saturday, says—

"We have, for some time, heard rumors on the subject of the financial condition of the Post Office, which did not in the least surprize us, because we foresaw and predicted it four years ago, as the consequence of the inexperience of the persons appointed at the outset of the present Administration, to succeed the well tried, faithful, and capable agents, who had so long successfully administered the affairs of that department."

What shall be done with the surplus revenue? Let it remain in the Treasury—to be used for the essential wants of the government—and in the mean time, reduce the duties, revise Mr. Clay's Tariff Bill, and insist upon adapting it to the state of the Treasury. Here is our safety—and this is the path which is pointed out to us as if by a pencil of light.

The Tariff must be further reduced—We must particularly apply the knife to the duties on woollens. It was but the other day, that the New York Commercial, in describing the Fair of the American Institute in New York, spoke of the prosperity of the woollen manufactures.—*Richmond Enquirer.*

Missionaries Sailing.—Rev. James R. Echard missionary of the American Board of Commissioners of Foreign Missions; Mr. E. S. Minor, a missionary printer, and their wives, sailed last Tuesday from Salem, for India, in the ship Shepherdess, Capt. Ward. Religious services were performed in the Seamen's Chapel, before they embarked. Rev. Mr. Cook and wife, Baptist missionaries, destined for Siam, were to have sailed also in the Shepherdess, but were prevented by the illness of the lady.

It is stated that the Orthodox Friends in New York have filed a bill in Chancery, claiming the property belonging to the Society in that city.

A Leaping Fish.—The bonita has the power of throwing itself out of the water to an almost incredible distance, when in pursuit of its prey, (the flying fish) and the day previous to our arrival at Mozambique, one of these fish rose close under our bow, passed over the vessel's side, and struck with such force against the poop, that had any one received the blow, in all probability it would have been fatal.—Stunned by the violence of the contact, it fell motionless at the helmsman's feet; but, soon recovering, its struggles were so furious, that it became necessary to inflict repeated blows of an axe before it could be approached with safety.—The greatest elevation it attained above the surface of the water was eighteen feet, and the length of the leap, had no opposition occurred, would have exceeded 180.—*Captain Owen's Narrative.*

NEW YORK MARKETS, Nov. 2.

COFFEE—800 bags Cuba at 12 cents, and 500 bags at 12 1-2 cts. were sold for exportation. For the trade, 300 bags Cuba, 3d quality, at 11 cents. Small lots Brazil at 12 1-2 cents for old to 13 cts. for prime new crop. Some prime Laguayra at 13 cts. 300 bags St. Domingo at 12 1-4 cts., and some good Java at 13 1-2 cents.

COTTON—There was a fair demand for home manufacture, generally without change in price. The sales extended to 2,000 bales, of which 1,600 were Upland, chiefly new, at 15 1-4 a 16 1-2 cents a lb. Some old at 14 a 15 cts. 300 Orleans, 150 new at 18, old at 15 a 17 1-2. Mobile and Florida at 14 1-2 a 15. The sales on Satuday were small, and for Upland a slight concession was submitted to.

FRUIT—There were further sales of raisins; part of the Alfred's cargo on Friday went off with spirit at a slight advance on the price obtained the previous week. A very great quantity of Prunes were sold by auction, and the price very steadily supported.

HIDES—The demand is but moderate; 600 Montevideo were sold at 14 1-4 cts., 6 months: 2,000 B. Ayres at 14 a 14 1-2 cents; 2,000 Carthagena at 10 1-2 cts., 2,800 Orleans at 12 cts.: 3,000 Calcutta at 60 a 75 cts. each.

HOPS—There are but few in market. First-sort would command 20 a 21 cents for western, and 21 a 22 cents for eastern by the quantity. They are retailing a cent or two above these prices.

INDIGO—46 cases Bengal were sold at 160 a 165 s. p.

LIQUORS—100 half pipes A. Seignette brandy landing from ship Warsaw, were offered by auction on Saturday, and 20 sold at 132 a 130 cts. 6 mos. s.s. 20 qr. casks Madeira wine at 49; 100 qr. casks Port 40 a 28; 10 cases Muscat, $2 50.

MOLASSES—Prices having been reduced, at the close of the previous week, the sales became more animated, though with a slight further decline.

SUGAR—The sales of Cuba brown reached 1,000 or 1,200 boxes, 500 of which were for export, at 5 3-8 cts. lb. s. p. and the rest at 7 3-4 a 8 cts. A few whites at 9 1-4 a 9 1-2 cts. By auction, 31 hhds. fair Porto Rico at 7 7-8. 4 hhds. inferior Orleans at 4 7-8 cts. 10 hhds. and 40 bls. do at 6 3-8 a 7 3-8 cts.

WOODS—Sales of 300 tons Campeachy logwood, at $26 a 27. 45 tons St. Domingo at about $20, and 150 tons Lima wood, terms not stated. Red oak hhd. staves sell at $26 a $28.

WOOL—There were several sales to manufacturers near the close at full prices. Saxony 75 cts.; Merino 65 a 70 cts.

TEAS—There were two sales by auction of some importance. The last was thought to be at a small reduction in prices, considering quality, which was poor.

CORN EXCHANGE—The demand for Flour kept pace with the receipts until the last two days, when the demand fell off in some degree, though there was not in the whole any great accumulation of stock. Wheat is in demand, a parcel of good Virginia sold at 122c. Genessee 118 a 20. Rye 80c. full and in demand. Corn was very dull; Jersey yellow closed at 75c.; Southern 65 a 70c. Of barley there were large sales at 70c. Oats 44c.

FREIGHTS—For cotton to Liverpool 3-8 and 7-16, very little shipping at this moment. To Havre, ashes $6 and $8, and rice $10 per ton.

MONEY AND EXCHANGE—Money still continues rather dear. Prime notes were negotiated in Wall street, at 8 a 9 per cent. interest, and can be had any day at this rate. In Exchange on London, some good bills were sold at $5 73, (6¼ per cents.) but others obtained 6 3-4 a 7 per cent. France 18 7-8 c. per franc. Hamburg 34 1-2 a 3-4. Amsterdam 40c. gilder.—*Jour of Com.*

Fairbanks' Platform Scales.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

Paper Mill for Sale.

THE Extensive Establishment, known as the Soft Spring Paper Mill, now in the occupancy of C. Lukens & Co. is offered for sale.—Its situation is both desirable and healthy, possessing local advantages superior to any mill in the west, with a spring of pure, soft water, yielding a superabundance for all purposes—propelled by an engine sufficiently powerful, and to which has recently been added an entire New Machine for the manufacture of paper. Its location is about two miles from the city, on the Eastern Turnpike. The subscribers have no hesitation in believnig it offers inducements to purchasers highly advantageous.

The terms will be rendered satisfactory, and but a small portion of the purchase money required at the time of sale, with an extended credit for the residue, being determined to make an early disposal. It will be sold low. Application made personally, or by communication, to either of the subscribers, will be attended to.

SIX EGYPTIAN MUMMIES

In the Diamond, next door to the office of The Pittsburgh Gazette.

THE features of some of these mummies are in perfect expression—the hair of the head preserved as if now living. For the direct purpose of giving visitors, of all descriptions, that wish to see the ancients themselves, and likewise the bodies that were embalmed not less than three thousand years ago, this collection was exhibited to a numerous concourse of visitors, in the city of Philadelphia, for the space of 3 months; and next in Baltimore, in the Museum, for five weeks, where contract was only made for two weeks, and continued for five weeks by request. The inhabitants of this city, it is hoped, will call, and patronize a collection worthy the attention of the curious.

The proprietor is authorized to use the names of the most eminent physicians and professors in the city of Philadelphia, and likewise that of Baltimore.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county---and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others--- a soil rich and productive---the neighborhood abounding in coal---well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

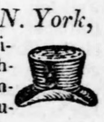
SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,



RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints. Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning, [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning,* from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
